EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ronald S. Tamura on July 26, 2005.

The application has been amended as follows:

In claim 1, line 4, after "electrode" insert –for patient stimulation–.

Cancel claims 16-21.

Reasons For Allowance

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or reasonably suggest an implantable medical lead body with a lubricious interface for and a distal and proximal circumferential seal to respectively attach a distal portion and proximal portion of the membrane to the outer surface of the insulating housing.

The prior art made of record and not relied upon is considered pertinent to the Applicant's disclosure. Shoberg et al. (Pub. No. 2005/0027342, hereinafter "Shoberg") and Alinder (Pub. No. 2004/0267342, hereinafter "Alinder"). Shoberg and Alinder teach lubricious properties useful for facilitation of movement, but fail to teach the distal and proximal circumferential seals attached to respective membrane portions.

Art Unit: 3762

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
